All Powerball and Mega Millions Drawings were verified and processed with no abnormalities. The Internal Control System (ICS) was processed for each drawing without any imbalances. All appropriate winning number information was broadcast correctly to all media contacts. All in-house staff received appropriate information via email.

Executive Director Carey stated that on June 22 there was an issue with the ball machine for Pick-3. There are three sets of balls, numbered 0 to 9. Each set is loaded into a specific chamber for the Pick-3 machine and when the drawing starts the balls drop out of each of their individual chambers into the bubbler. In this case, when the video started, one set of balls did not drop into the chamber. A member of the draw team walked over to the machine, on camera, and manually released the balls into the bubbler. The machine was restarted and the draw took place. The drawing was certified by our Certified Public Accountants, Mercadieu PC. Smartplay was here the next day to perform maintenance on the machine. Smartplay determined that a spring in the ball drop mechanism had detached from the dropping lever, and they repaired the mechanism.

Executive Director Carey stated that the Festival of Ballooning will be taking place from July 28 to 30.

Executive Director Carey invited Adam Perlow, Vice President and Chief Operating Officer of Northstar, to provide an update on Northstar activities. Mr. Perlow stated that in May there were two scratch-off ticket launches; \$20 Crossword Bonanza and \$5 Jersey Debate. The crossword tickets remain our second most popular selling ticket. The Jersey Debate ticket is the bestselling \$5 ticket of all time. He thanked the Sales and Marketing teams. Mr. Perlow thanked the Commission for their approval of the fun Fast Play games. He stated that they have had 22.4% growth in this category. In May, there was a little bit of a year over year decline, which is unusual for this game. The reason for that is that there were many winners that kept reducing the jackpot. In April, the \$10 Bigger Spin ticket was launched. He also discussed an event on June 3 with the Red Bulls where Lottery wheeled the Big Spin machine out on onto the playing field and the player won the top prize of \$400,000. Mr. Perlow also discuss the Balloon Festival happening at the end of July and noted that the bands performing include KC and the Sunshine Band, Everclear and Lit. About 150,000 people attend the festival and we are going to have the size footprint we have always had. Mr. Perlow stated that Johnny's Pork Roll truck may be there, as part of our Jersey Debate promotions. Mr. Perlow stated that concludes his comments.

Executive Director Carey concluded the Director's report.

Chairman D'Anton asked if there are any questions or comments.

Vice Chair Blazovsky stated that she noted that security cases increased substantially for this month. She asked if something happened that caused that increase. Executive Director Carey responded that he does not know why specifically security cases have increased significantly. He stated that the Lottery has hired several new investigators in the Security department over the past few months.

Executive Director Carey asked Deputy Executive Director Marseglia how many Investigators worked in the Security Department. Deputy Executive Director Marseglia responded that we have 10 Investigators.

Chairman D'Anton asked what the peak was at one time. Deputy Executive Director Marseglia responded that he did not know what the peak was but we were down to six Investigators at one point.

Vice Chair Blazovsky stated that Security cases increased over 200. Deputy Director White said this is the highest it has been at in 10 years.

Vice Chair Blazovsky stated that is why it flagged in her mind. Executive Director Carey responded that we have also been working on improving the reporting system. The Lottery has done a lot of work with IMS and our databases to improve the reporting system and how we manage that system. Those are

some things that are going on that will definitely increase the number of cases. He stated that he will get specific information for the Commissioners. Vice Chair Blazovsky said that she appreciates that.

Vice Chair Blazovsky stated that she read the meeting minutes from last month and noticed that there was a substantial discussion on revamping the validation and the payment process. She added that making sure players get their checks as soon as possible has always been a priority for her. She stated that she noticed that when the discussion came around to target dates, there are none set and she thinks it is important to have a project plan that makes this project the priority. She stated that when you do not have target dates to meet, sometimes other things get in the way. She stated that she hopes that the Commission can see a plan and list the various aspects of the stakeholders, deliverables and timelines. Executive Director Carey responded that the Lottery will provide that for Vice Chair Blazovsky.

Chairman D'Anton asked how long were the delays. Executive Director Carey responded that it was up to eight to ten weeks.

Chairman D'Anton asked if that was after they submit the winning ticket. Executive Director Carey responded that is the time it was taking after a player submitted a winning ticket. He stated that is not good for the Lottery and it is not good for our players. There were many factors that went into that delay. The claims group was working with older processes that we needed to update and teleworking was a little bit of a struggle. Changes have a tendency to make things a little rougher. Our players should be getting paid in two to four weeks and that is a goal.

Chairman D'Anton asked if that was normal in other states. Executive Director Carey responded that it varies.

Chairman D'Anton asked if everything is being paid by check, wire or ACH. Executive Director Carey responded that we are working with a new state banking contract that will allow us to do ACH transfers regularly. We offer wire transfers to high tier winners but all of the other winners are paid by checks. We receive about 4,000 claims a month. Of those 4,000 claims, as many as 500 are for winners who have a ticket worth less than \$599.99, which causes delays. Those claims get paid by a paper check, which goes through a State contract vendor, which adds about another seven days to the process.

Chairman D'Anton stated that the retailers can pay claims up to \$600. Executive Director Carey responded that the retailers can pay up to \$600 and some players just chose to file a claim.

Executive Director Carey stated that we are looking at many things that we can do to improve those processes. Some of them are simple, such as giving players detailed instructions on how file a claim form. We are also looking to make substantive changes such as offering ACH transfers.

Vice Chair Blazovsky stated that she thinks that the project should be nailed down with some dates.

Chairman D'Anton asked if there are any additional questions or comments. Hearing no other questions, Chairman D'Anton requested a motion to approve the Director's Report. Commissioner Kazmir made the motion to approve the Director's Report. Vice Chair Blazovsky seconded the motion and all the Commissioners voted yes. The motion carried.

PUBLIC COMMENT ON AGENDA ITEMS

Executive Director Carey stated that to the Lottery issued a revised agenda prior to the meeting commencing. The item regarding internet sales was removed from the agenda. He explained that there is still contractual work and other things that the Lottery needs to take care of over this period of time so that we can actually get that done. He also stated that Notice of Adoption regarding Courier Services and other forms of gaming was tabled for this meeting. The Lottery needs to make sure that our notices are proper and that everybody has their questions answered before we proceed. Deputy Attorney General Kelly stated that tabling the Publication for Notice of Adoption regarding Courier Services and other forms of gaming should be done by a motion and vote because it remained on the agenda.

The approval of publication of Notice of Adoption and responses to public comments to amendment to N.J.A.C 17:20-12.6 – Courier Services – other forms of gaming was tabled. Chairman D’Anton requested a motion to remove the approval of the publication of Notice of Adoption and responses to public comments to amendment to N.J.A.C 17:20-12.6 – Courier Services – other forms of gaming. Commissioner Kazmir made the motion to table the Notice of Adoption. Commissioner Leonard seconded the motion and the Commissioners voted yes to table the Notice of Adoption and responses to public comments to amendment to N.J.A.C 17:20-12.6 – Courier Services – other forms of gaming. The motion carried.

There was no public comment on the telephone line on agenda items.

Executive Director Carey asked if there was anyone in the Commission room from the public that would like to comment on these items.

Mary Ellen Peppard stated that she represents the New Jersey Food Council. She stated that they represent grocers, convenience stores and their supplier partners. She thanked the Commission. She wanted to comment about the removal of the internet sales or the temporary removal of that item. She thanked the Lottery for not considering the matter and hoped that we can continue to have some conversations on that. She said that this is a concerning issue for Food Council members that sell Lottery, particularly the convenience stores. She explained that one of the biggest concerns with this issue is not just the loss of the retail sale and commission for sales, but also the potential loss of ancillary purchases by customers that are used to going to their favorite store to get those products that may longer come. Some of the members that we represent are franchise operations so this is particularly difficult for those types of operations, smaller retailers. Again, they hope that we can find a different way to continue to work with our authorized vendors. She stated that they would respectfully ask that the Lottery not put that on the next meeting agenda.

Executive Director Carey and the Commissioners thanked Ms. Peppard.

Executive Director Carey asked if anyone else in the room that needs to comment. Hearing no other comments, Chairman D’Anton closed the Public Comment on agenda items section of the meeting.

We were advised that even though we did everything according to the Open Public Meetings Act, we should issue a revised schedule which includes today's date on the amended schedule.

Chairman D'Anton asked if there were any questions or comments regarding the approval of the amended 2023 meeting schedule. PUBLIC COMMENT

Eric Blomgren, Chief Administrator at NJ Gasoline-Convenience Store- Automotive Association, stated that he represents several hundred convenience stores and other Lottery retailers across the State. He wanted to address the same thing that Ms. Peppard was talking about regarding the internet direct sales. He wanted to make sure the Commissioners knew, and heard from them, that they oppose that regulation. He thanked Executive Director Carey and his staff for meeting with them previously about this, for the Lottery's general out reach about this, and about some of the protections for retailers that he has described for them.

Mr. Blomgren stated that his association opposes the Commission moving forward with the regulation. He stated that they cannot imagine that it will not take business that would have otherwise been in their store. Whether that is irregular players who jump in just for a jackpot now doing it online, or regular players who start making a portion of their purchases online, even if not all of their purchases. If there really is a large market that can be accessed only by internet sales, he would think that market can be satisfied by the existing Lottery Courier companies. They are particularly afraid of what the advertising campaign would be should this program be launched. Will the messaging emphasize that internet sales are more convenient than the convenience store? Especially given that advertising is run by an outside, for-profit corporation. He asked how much of the total ad budget would be redirected to this program specifically and away from the traditional advertising that our members count on. Mr. Blomgren stated that they still have concerns about the overall legality of doing it through the regulatory process. The statute says that Lottery tickets can only be sold by a licensed Lottery agent and that no person, business or government entity shall be licensed as an agent if Lottery sales are their exclusive business. He stated that ultimately they think that the State selling tickets directly to the consumer through the internet puts physical stores in competition with the very entity that is their supplier and chief advertiser. In addition, they reached out earlier this year to the Legislature about this proposal to let them know of their concerns and opposition. That letter was also joined by the Asian American Retailers Association and the New Jersey Food Council, State Chamber of Commerce, Chamber of Commerce Southern New Jersey, Commerce and Industry Association, NJ Business and Industry Association, National Federation of Independent Businesses, Independent Pharmacy Alliance and Garden State Pharmacy Owners Association. He thanked the Lottery for the opportunity to comment.

Executive Director thanked Mr. Blomgren. He stated that the New Jersey Lottery and Northstar, our sales and marketing vendor, remain absolutely committed to our retailers. They are the front face of the New Jersey Lottery and will continue to remain so.

There was no public comment in the Commission room.

EXECUTIVE SESSION

There was no Executive Session.
